For many years Steuben County Emergency Services has had a registry to allow citizens with access or functional needs and facilities that serve those needs an opportunity to provide information to emergency response agencies, so first responders can better plan to serve them in a disaster or other emergency. This registry is being revised and updated to better serve the access and functional needs population.

For the purpose of this program, an individual with access or functional needs is someone who cannot receive, understand or act upon emergency protective orders.

The information collected here will not be available to the public. The information will be held securely and only accessed for the purpose of emergency response and planning.

Please be as complete as possible in your responses. You will be contacted via mail or email to verify and ensure the information provided is correct and to make any necessary changes. Individual surveys will be archived after one year if not verified and facility surveys will be archived after six months if not verified.

**REMEMBER:** The first line of defense against the effects of a disaster is personal preparedness. During an emergency, the government and other agencies may not be able to meet your needs. It is important for all citizens to make individual emergency plans and prepare for their care and safety in an emergency.
